ABSTRACT

This report presents comprehensive data on higher education activities in North Carolina in 84 tables and 17 graphs. Data were compiled from forms completed by the individual institutions in the summer and fall of 1998. Data are usually presented separately for individual institutions by institution type public institutions, private institutions, community and technical colleges, junior colleges, and seminary/bible colleges. Tables and graphs are grouped into the following categories: (1) current enrollment, (2) enrollment trends, (3) undergraduate transfers; (4) degrees conferred, (5) faculty, (6) library resources, (7) costs to students, (8) admissions, (9) student financial aid, and (10) student housing. PREFACE

The University of North Carolina presents the thirty-first annual Statistical Abstract of Higher Education in North Carolina. This abstract covers the breadth of higher education activities in the State in their quantitative aspect, from simple counts of enrollment and degrees conferred to complex analyses of the flow of student transfers among institutions. This wide range of information, collected and published annually, should be useful to members of the public and to planners and educators in educational institutions and government agencies. It is hoped that the information will aid in the more effective use of resources allocated to higher education.

The data for the abstract were assembled by the Program Assessment and Public Service Division of the General Administration of the University of North Carolina from information supplied by the colleges and universities. I especially wish to acknowledge the work of Linda Balfour and Arlene Spivey of the General Administration staff for their meticulous care in assembling and editing the abstract and the computing staff for generating data. Acknowledgement is also due to assisting officials at the institutions, public and private, for their continuing and wholehearted cooperation. To all, I express my sincere appreciation.

INTRODUCTION

The Statistical Abstract of Higher Education in North Carolina, 1998-99 has been compiled to give a detailed statistical view of higher education in North Carolina. This abstract presents both past and current (1998-99 academic year) information. It is designed to provide legislators, educators, and other interested citizens of North Carolina with a statistical account of higher education in this State. From this abstract, the reader can gain some knowledge about who is being educated, where they are being educated, and the resources supporting their education.

The data reported herein were compiled from forms mailed to the individual institutions by the Program Assessment and Public Service Division of General Administration of the University of North Carolina in the summer and fall of 1998 for processing during the 1998-99 academic year. The forms are designed to satisfy both Federal and State data requests (see Appendix A).

The staff of the Program Assessment and Public Service Division makes every effort to verify the validity and reliability of the data reported by the institutions. The ultimate responsibility for the accuracy of the data, of course, lies with the individual institutions since they originate the reports on which this abstract is based. In certain instances discrepancies may appear to be present, when in reality the data reported may reflect different interpretations of definitions by respondents in different institutions. Wherever possible, these apparent discrepancies are explained by footnotes. For example, because of its unique student body, which consists of both college and high school students, data for North Carolina School of the Arts may not be directly comparable to other institutions in some tables in which they are presented.

SECTION I

CURRENT ENROLLMENT

In Fall 1997, the North Carolina Community College System changed from a quarter calendar to a semester calendar and went through a re-engineering process. In Statistical Abstracts previous to Fall 1997, community college enrollment was referred to as college transfer enrollment (for the college transfer program) or total curriculum enrollment (for total resident credit enrollment). Since Fall 1997, the college transfer designation is changed to "Associate Degree Students," which includes students enrolled in AA, AFA, AS, and AGE programs. The Associate of General Education (AGE) is not a college transfer associate degree and is not part of the Comprehensive Articulation Agreement; however, students in this degree program may take courses that have been approved for the Comprehensive Articulation Agreement and are included in the category of "Associate Degree Students." Students in the Associate of Applied Science (AAS) are excluded from this category.

SECTION II

ENROLLMENT TRENDS

There are policy changes at three campuses. The enrollment for Campbell University is approximately half what it has been prior to Fall 1991 because in prior years credit extension enrollment was included in their reports on resident-credit enrollment. Mount Olive College and Montreat College now include an off-campus site in their resident-credit enrollment, per instructions from their accrediting agency, because of the proximity of the off-campus site to the main campus.

Barber-Scotia College did not provide resident-credit enrollment for fall 1991.

SECTION IV

DEGREES CONFERRED

In 1983-84 the National Center for Education Statistics and the Office for Civil Rights - both within The Department of Education - adopted a new Classification of Instructional Programs (CIP) for reporting degrees conferred by colleges and universities in the United States. This classification system includes 40 major categories of degree programs, 36 of which apply to the bachelor's, master's, doctorate, and first professional degrees offered by North Carolina senior colleges and universities. This classification system was updated in 1992.

An earlier classification system - the one used to report degrees conferred in Abstract tables since the 1970-71 academic year - has been retained by the University of North Carolina for all purposes other than meeting official federal reporting obligations. For this reason, and for the purpose of maintaining comparability with Abstract data reported on degrees conferred in past years, the table formats for reporting degrees conferred in this section continue to use the former discipline categories. The crosswalk between the current CIP and these categories is presented in Appendix C. Readers may obtain more detailed data by academic degree program level in CIP categories on the web site referenced on the cover of this publication.

Note: In the fall of 1991, the method of calculating the average SAT score for the University of North Carolina and its constituent institutions was changed to accomodate score data in unit record, rather than frequency distribution, format. Score averages dating back to 1981 have been revised to reflect the new method. All of these scores are recentered.

Note: The College Board has advised colleges and universities to report median and quartile scores in addition to simple averages. The top quartile is the SAT score in which 25% of students score that high or higher. The median is the SAT score in which 50% of students score that high or higher. The last quartile is the SAT score in which 75% of students score that high or higher.

Note: The College Board has advised colleges and universities to report median and quartile scores in addition to simple averages. The top quartile is the SAT score in which 25% of students score that high or higher. The median is the SAT score in which 50% of students score that high or higher. The last quartile is the SAT score in which 75% of students score that high or higher.

*The Robert T. Stafford Student Loan Program (formerly called Guaranteed Student Loans) consists of Stafford Loans, PLUS loans, and Federal Direct Student Loan (FDSL). Collectively in North Carolina the program is called the North Carolina Insured Student Loan Program. Data include loans to undergraduate and graduate students. Data do not include loans made under other state or private non-profit loan programs.

**Includes loans in The North Carolina Student Loan Program for Health, Science and Mathematics (HSM).

^These figures represent Fall 1997 data.

NOTE: The allocations shown above were made under the State Contractual Scholarship Fund (SCSF) program to North Carolina resident undergraduate students attending private colleges and universities in North Carolina. For 1998-99, the allocation made to each institution was determined by multiplying the number of full-time equivalent North Carolina resident undergraduates enrolled by $900.00. The funds so allocated were then granted by the institutions to their North Carolina undergraduate students on the basis of financial need. The General Assembly appropriated $23,782,350 for the SCSF program for the 1998-99 academic year. The shortfall in the SCSF program was covered by current and past year refunds to the program and a budget transfer from the North Carolina Legislative Tuition Grant (NCLTG) program.
Administration of the SCSF program which was established by the North Carolina General Assembly in 1971, was transferred to the North Carolina State Education Assistance Authority in July 1993.

NOTE: The allocations above were made under the North Carolina Legislative Tuition Grant (NCLTG) program which is administered by the North Carolina State Education Assistance Authority. The General Assembly appropriated $35,851,039 which was awarded on the basis of $1,600 to each North Carolina resident enrolled in a North Carolina private college or university. Differences between the appropriated amount and the expended amount were covered by current and prior year refunds and a transfer of funds by the State Budget Office. NCLTG awards are paid to Institutions for and on behalf of eligible students each term as defined under NCLTG Regulations.

*Full year figures are estimated.

**The total amount provided recipients does not reflect program refunds.

APPENDIX B

DEFINITIONS OF TERMS

The definitions below are intended to facilitate the better understanding of information presented in this report. These are selected from the University of North Carolina's reporting forms and the US Department of Education's Integrated Postsecondary Education Data System forms.

1. ENROLLMENT, unless otherwise noted, refers to the headcount resident-credit enrollment. The resident-credit enrollment includes full-time and part-time students enrolled in courses basic to or creditable to a bachelor's or higher degree. This excludes students in extension, correspondence, adult education, audited courses, short courses, and those enrolled for individual lessons only.

Undergraduate includes students who have not completed a full four-year program or its equivalent and also students in a five-year bachelor's program. This classification includes students in junior and community colleges in programs transferable to four-year institutions.

First Professional includes students who are in a professional school or program (law, medicine, dentistry, pharmacy, veterinary medicine, and theology) which requires at least two or more years of previous college work for entrance.

Graduate includes students who have attained at least one standard bachelor's degree or first professional degree and who are or might be candidates for a master's or doctorate degree.

First-Time Freshman includes new students who have not attended college prior to the immediately previous summer sessions. Also includes students who entered with advanced standing (college credits earned before graduation from high school).

Special/Unclassified includes students who are not candidates for a degree, diploma, certificate, or equivalent award, although taking courses in regular classes with other students.

Full-Time Student includes students registered for 12 or more semester credit hours as undergraduate or 9 or more semester credit hours as graduate or first professional students.

Part-Time Student includes students registered for less semester credit hours than a full-time load.

FTE (Full-Time Equivalent) of Part-Time Students

Undergraduates	Graduates
12 or more semesters credit hours = 1	9 or more semester credit hours = 1
9 to 12 semester credit hours = 3/4	6 to 9 semester credit hours = 3/4
6 to 9 semester credit hours = 1/2	3 to 6 semester credit hours = 1/2
Less than 6 semester credit hours = 1/4	Less than 3 semester credit hours = 1/4

In-State Students are those whose legal residence, as determined at the institution, is in North Carolina.

Out-of-State Students are those whose legal residence, as determined at the institution, is in a state other than North Carolina or in a foreign country.

2. TRANSFER refers to students transferring to North Carolina institutions who have college credits from other institutions in a previous regular session(s). A former student transferring back to his original institution after attendance at another institution is not classified as a transfer.

3. DEGREES in this report refer to earned degrees conferred (not honorary). Specifically, the following degrees are included:

Bachelor's Degree requires successful completion of at least four but not more than five years of academic work.

First Professional Degree signifies the completion of the academic requirements for a selected profession, which is based on an educational program requiring at least two academic years of previous college work for entrance and which requires a total of at least six academic years of college work for completion. Examples of first professional degrees are the Doctor of Jurisprudence (J.D.) and Bachelor of Laws (LL.B.), Doctor of Dental Surgery (D.D.S.), Doctor of Pharmacy (Pharm.D.), and Doctor of Medicine (M.D.) degrees.

Master's Degree is customarily granted upon successful completion of one (sometimes two) academic years of work beyond the bachelor's degree.

Doctorate Degree includes such degrees as Doctor of Education, Doctor of Juridical Science (S.J.D.), Doctor of Public Health, and the Doctor of Philosophy in any field.

4. FACULTY refers to the professional personnel employed in colleges and universities who are primarily assigned to resident instruction and departmental or organized research. This does not include other professional personnel in library, auxiliary enterprises, and public service activities.

5. EXTENSION ACTIVITY is defined in this report as any on- or off-campus instructional, research application, or public service activity sponsored by the reporting institution which is in addition to the regular on-campus instructional and research activities provided for the regularly enrolled, on-campus, degree candidate.
